ORGANIZATIONAL UPDATE

November 3, 2026

FESTIVAL: Hard to come up with adjectives to adequately describe the success of this event. Thank you to Phil and his Team for all their hard work. Cindy's office support and Israel's field support with his staff was exemplary. Next year's Festival has been set for **SATURDAY, OCTOBER 30TH**. A group of folks have already volunteered to conduct Halloween contests and events, which will increase the number of families attending.

SUNSET CELEBRATION: A nice crowd attended the 10th Anniversary of the ECO Park. Israel provided hot dogs and popcorn, and the socialization was great.

LANDOWNERS MEETING: Our first evening meeting with a State of the District report, along with an election for a landowner position. The regular meeting will follow. The State of the District report will be on the website and will include a number of colored pictures related to District facilities, equipment and parks that are not being printed for the meeting due to the cost of printed copies.

THE PARC: Richard Paul-Hus is on the agenda to update the Board and discuss the future of the school program.

LEGISLATIVE APPROPRIATION: The retainer with Ramba & Associates has begun, and Israel and I are coordinating the presentation to the Legislative Delegation tentatively set for December 9th.

SUPERVISOR GUIDES: The updated materials will be available at the December meeting. You should be using this as your main resource, and if there is any additional information you would like to have included, please let us know.

WEBSITE USE: For the month of October there were 33,805 page views by 2,056 subscribers. This is a new page view high and well above average.

SOCIAL MEDIA: Discussion will continue on whether the Board wants to set up accounts that will not allow for comment/replies.

CYCLING EVENT: This Annual 24-12-6 hour Time Trial Championship will be held November 14-15. Prior year events were well received by our residents.

PFAS: You may remember the class action suit we are part of regarding this utility issue. A settlement has been reached and will be presented to the Court January 15, 2027 in Charleston SC. No indication of the amount we may receive.

SEVERE STORM: The District took a big hit these past few days, and our staff worked above and beyond the call of duty in monitoring the pump station, flooded areas, and sewer issues. No one saw this coming, so there was not enough time to lower the canals beforehand.
