RE: CRAIG A. SMITH AND ASSOCIATES, LLC

Dear Joe,

I am excited to announce, that after 40 years of providing Engineering, Surveying and Utility Location services for you and many other clients throughout Florida, Craig A. Smith and Associates (CAS) is now a member of Smart Infrastructure Group (SIG). This coming together allows CAS to remain an independent local business while gaining the additional strengths that SIG has to offer. SIG is a local South Florida company providing engineering and related services for the past 3 decades. SIG is inclusive of RADISE International (Geotechnical & Construction Quality Control), Smart Structures (Structural Design and Special Technologies), Applied Foundation Testing (Deep Foundation Testing) and now Craig A. Smith & Associates (Engineering, Survey & Utility Locates).

SIG and CAS are a great fit for both its employees and clients, as our business philosophies align perfectly, focusing on quality and client service as our cornerstone. This coming together will have no impact on our relationship, as all CAS staff have been retained to continue the service you expect and are accustomed to. CAS looks forward to its continued relationship with you, and is excited to be able to offer additional services and resources to meet your needs.

As always, we appreciate the opportunity to serve you and look forward to continuing our relationship and honoring our agreements through our contract duration and beyond. We will work directly with the procurement department to update our current information on file.

For more information, feel free to contact me directly and/or visit our website at [Smart Infrastructures Group \(smart-infrastructure.com\)](http://Smart Infrastructures Group (smart-infrastructure.com))

Sincerely,

CRAIG A. SMITH AND ASSOCIATES

Stephen Smith, P.E.
President
