

ORGANIZATIONAL UPDATE

Joe and Israel

April 1, 2026

FASD CONFERENCE: We need to finalize your attendance so that Diane can make the appropriate registrations. Let her know what pre-conference sessions you may need to take for your CDO credits, as that is a separate registration cost.

PUBLIC HEARINGS: Will take place prior to the Board meeting to discuss an increase in water meter installations, and a NO WAKE zone at Arbuckle Creek Park.

FIRE STATION: I have been informed that the groundbreaking will take place on Wednesday, April 22, at 10:00 a.m.

ECO WORLD: Staff are working on funding options for the new wastewater units. A Facilities Plan must be completed for an SRF loan, and staff are sensitive to any rate increases this could cause. We have met with a local contractor to design and construct the facility needed to house the units and also provide rooms for ECO World. Definitive prices and rate impacts will be available prior to the first draft of the budget. A briefing was sent separately on March 29.

ST. PATRICK'S DAY LUNCHEON: Thank you once again to all the Board members who sponsored this luncheon and carrying on Tim's tradition.
